

Shipping integration setup for Magento.

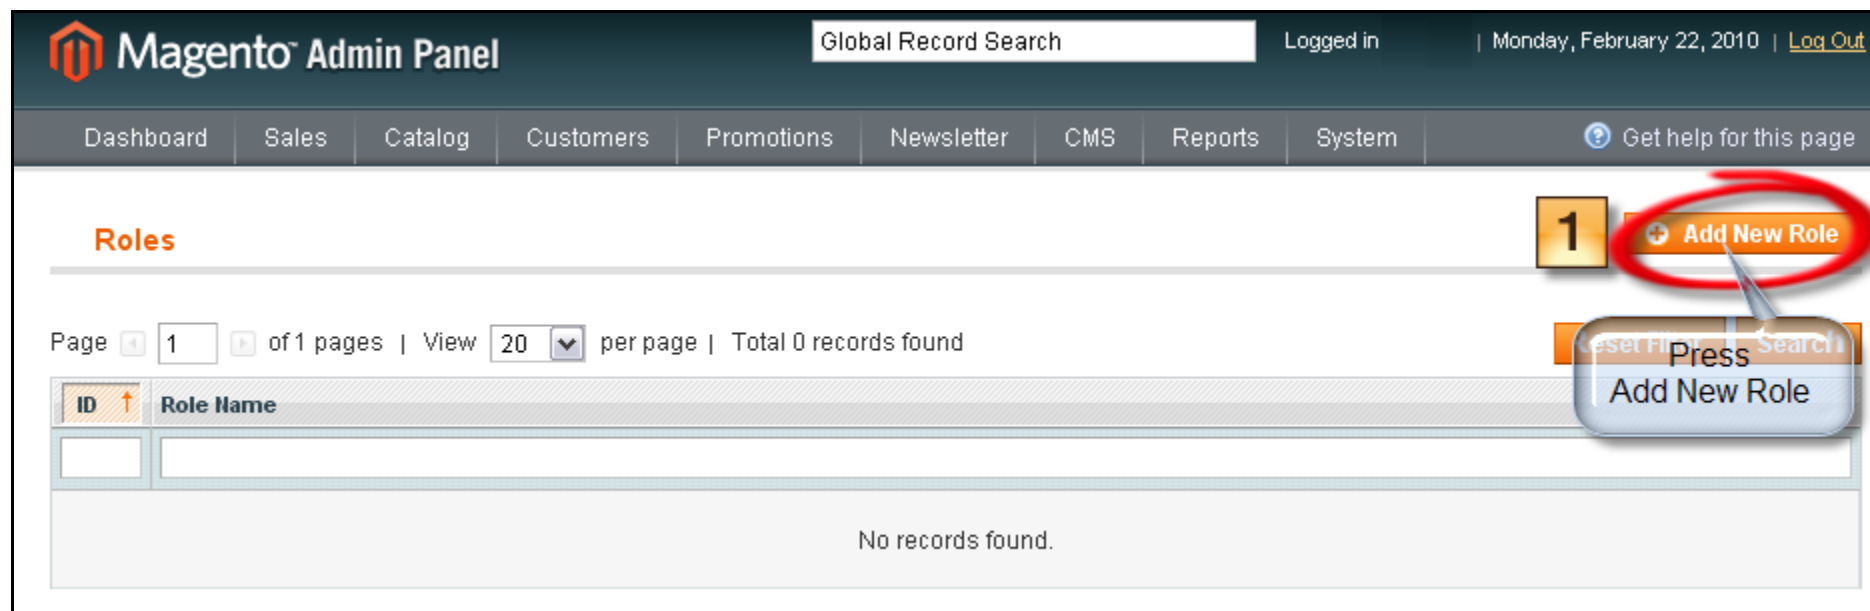

To interact with Magento, a new Web Services Role & User need to be created. The screen shots that follow describe this process.

This process takes just ten to fifteen minutes, less for experienced Magento admins.

First, Create a new Web Services Role

Press Add New Role:

Give the Role a Name: SHIPPINGZ_ACCESS

The screenshot shows the Magento Admin Panel interface. At the top, there is a header with the Magento logo, 'Admin Panel', a 'Global Record Search' bar, and user information including 'Logged in' and the date 'Monday, February 22, 2010'. Below the header is a navigation menu with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. The main content area is titled 'Add New Role' and includes buttons for 'Back', 'Reset', and 'Save Role'. On the left, there is a 'Role Information' sidebar with a 'Role Info' section and a 'Role Resources' link. A callout bubble with the number '2' points to the 'Role Resources' link, and another callout bubble with the text 'Click on Role Resources' points to the same link. In the main form, the 'Role Name' field is highlighted with a red circle and contains the text 'SHIPPINGZ_ACCESS'. A callout bubble with the number '1' points to this field, and another callout bubble with the text 'Enter this role name' points to the same field.

Add a New User

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes links for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. The 'System' link is highlighted with a red circle and a yellow callout box labeled '1'. A dropdown menu is open under 'System', showing options like My Account, Notifications, Tools, Web Services, Design, Import/Export, Manage Currency Rates, Transactional Emails, Permissions, Magento Connect, Cache Management, Manage Stores, and Configuration. The 'Web Services' link is highlighted with a red circle and a yellow callout box labeled '2'. A sub-menu is open under 'Web Services', showing 'Users' and 'Roles'. The 'Users' link is highlighted with a red circle and a yellow callout box labeled '3'. A callout bubble points to the 'Users' link with the text 'Select Web Services | Users'. On the left side, the 'Configuration' section is visible, with 'GENERAL' selected. The 'General' section is also visible, showing options like Web, Design, Currency Setup, Store Email Addresses, and Contacts.

Press Add New User

Select Add New User

Complete the User Information.

For the API Key: Generate a new, strong password of 30 digits (exclude punctuation) at:
<http://www.pctools.com/guides/password>

Note: This API Key is also entered as the "Magento_Password" in ShippingZSettings.php

The screenshot shows the 'New User' form with the following fields and annotations:

- User Information** (Left Panel):
 - User Info** (Tab):
 - User Role**: Annotated with a yellow box containing the number '4' and a callout box that says 'Press User Role'.
- Account Information** (Main Form):
 - User Name ***: SHIPPINGZ. Annotated with a callout box: 'This is entered in the ShippingZSettings.php as the "Magento_Username"'.
 - First Name ***: SHIPPING. Annotated with a yellow box containing the number '1' and a callout box: 'Complete these fields'.
 - Last Name ***: LABELS.
 - Email ***: storeadmin@my-store-domain.com. Annotated with a yellow box containing the number '2' and a callout box: 'Enter a working email at your company'.
 - Api Key ***: [Redacted with dots]. Annotated with a yellow box containing the number '3' and a callout box: 'Generate a strong password of 14-30 digits at: <http://www.pctools.com/guides/password/>'. A red arrow points from this box to the 'Api Key Confirmation' field.
 - Api Key Confirmation ***: [Redacted with dots].
 - This account is**: Active (dropdown menu).

Buttons at the top right: Back, Reset, Save User.

Associate the New User with the SHIPPINGZ_ACCESS Role

The screenshot displays the Magento user management interface. The top navigation bar includes links for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System, along with a 'Get help for this page' link. The left sidebar shows 'User Information' with sub-sections 'User Info' and 'User Role'. The main content area is titled 'New User' and features a 'Back' button and a 'Save User' button (circled in red with a callout '2'). Below the title, there is a pagination bar showing 'Page 1 of 1 pages', 'View 20 per page', and 'Total 1 records found'. A table lists the assigned roles, with the first row showing 'Any' in the 'Assigned' column and 'SHIPPINGZ_ACCESS' in the 'Role Name' column. A red circle highlights the selection icon in the 'Assigned' column, with a callout '1' and a speech bubble saying 'Select the SHIPPINGZ_ACCESS role'. Another callout '2' points to the 'Save User' button, with a speech bubble saying 'Save the user'.
